[F. No.354/32/2019-TRU]

(Pramod Kumar) Deputy Secretary to the Government of India

Note: - The principal notification No. 8/2017 - Integrated Tax (Rate), dated the 28th June, 2017 was published in the Gazette of India, Extraordinary, vide number G.S.R. 683 (E), dated the 28th June, 2017 and was last amended by notification No. 31/2018-Integrated Tax (Rate), dated the 31st December, 2018 vide number G.S.R. 1278 (E), dated the 31st December, 2018.

<u>Annexure I</u> <u>Real estate project (REP) other than Residential Real estate project (RREP)</u>

Input tax credit attributable to construction of residential portion in a real estate project (REP) other than residential real estate project (RREP), which has time of supply on or after 1st April, 2019, shall be calculated project wise for all projects which commence on or after 1st April, 2019 or ongoing projects in respect of which the promoter has not exercised option to pay integrated tax on construction of apartments at the rates as specified for item (ie) or (if) against serial number 3, as the case may be, in the prescribed manner, before the due date for furnishing of the return for the month of September following the end of financial year 2018-19, in the following manner:

1. <u>Where % completion as on 31st March, 2019 is not zero or where there is</u> inventory in stock

(a) Input tax credit on inputs and input services attributable to construction of residential portion in a REP, which has time of supply on or after 1st April, 2019, may be denoted as Tx. Tx shall be calculated as under:

Tx=T-Te

Where,

- T is the total ITC availed (utilized or not) on inputs and input services used in construction of the REP from 1st July, 2017 to 31st March, 2019 including transitional credit taken on 1st July, 2017;
- (ii) Te is the eligible ITC attributable to (a) construction of commercial portion and
 (b) construction of residential portion, in the REP which has time of supply on or
 before 31st March, 2019;
- (b) Te shall be calculated as under:

Te=Tc+Tr

Where, -

Tc is the ITC attributable to construction of commercial portion in the REP, calculated as under:

Tc = T * (carpet area of commercial apartments in the REP/ total carpet area of commercial and residential apartments in the REP) and

Tr is the ITC attributable to construction of residential portion in the REP which has time of supply on or before 31st March, 2019 and which shall be calculated as under,

 $Tr = T^* F_1 * F_2 * F_3 * F_4$ Where, -

$F_1 =$	Carpet area of residential apartments in REP				
Total carpet area of commercial and residential apartments in the RI					
$F_2 =$	Total carpet area of residential apartment booked on or before 31 st March, 2019				
• 2	Total carpet area of the residential apartment in REP				
F ₃ =	Such Value of supply of construction of residential apartments booked on or before 31 st March, 2019 which has time of supply on or before 31 st March, 2019				
- 5	Total value of supply of construction of residential apartments booked on or before 31 st March, 2019				

(F3 is to account for percentage invoicing of booked residential apartments)

% Completion of construction as on 31st March, 2019

Illustration: where one- fifth (twenty percent) of the construction has been completed, F_4 shall be $100 \div 20 = 5$.

Explanation: "% Completion of construction as on 31st March, 2019" shall be the same as declared to the Real Estate Regulatory Authority in terms of section 4 and section 11 of Real Estate (Regulation and Development) Act, 2016 (16 of 2016) and where the same is not required to be declared to the Real Estate Regulatory Authority, it shall be got determined and certified by an architect registered with the Council of Architecture constituted under the Architects Act, 1972 (20 of 1972) or a chartered engineer registered with the Institution of Engineers (India).

(c) A registered person shall have the option to calculate 'Te' in the manner prescribed below instead of the manner prescribed in (b) above,-

Te shall be calculated as under:

$$Te = Tc + T1 + Tr$$

Where, -

Tc is the ITC attributable to construction of commercial portion in the REP, calculated as under:

Tc =T3 * (carpet area of commercial apartments in the REP/ total carpet area of commercial and residential apartments in the REP);

Wherein

T3 = T - (T1 + T2)

T1 = ITC attributable exclusively to construction of commercial portion in the REP

T2 = ITC attributable exclusively to construction of residential portion in the REP

and

Tr is the ITC attributable to construction of residential portion in the REP which has time of supply on or before 31.03.2019 and which shall be calculated as under,

 $Tr = (T3 + T2)* F_1 * F_2 * F_3 * F_4$ or $Tr = (T-T1)* F_1 * F_2 * F_3 * F_4$

(d) The amounts 'Tx' and 'Te' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.

(e) Where, Tx is positive, i.e. Te<T, the registered person shall pay, by debit in the electronic credit ledger or electronic cash ledger, an amount equal to the difference between T and Te. Such amount shall form part of the output tax liability of the registered person and the amount shall be furnished in FORM GST ITC- 03.

Explanation: The registered person may file an application in FORM GST DRC- 20, seeking extension of time for the payment of taxes or any amount due or for allowing payment of such taxes or amount in installments in accordance with the provisions of section 80. The commissioner may issue an order in FORM GST DRC- 21 allowing the taxable person further time to make payment and/or to pay the amount in such monthly installments, not exceeding twenty-four, as he may deem fit.

(f) Where Tx is negative, i.e. Te>T, the registered person shall be eligible to take ITC on goods and services received on or after 1^{st} April, 2019 for construction of residential portion in the REP, for which he shall not otherwise be eligible, to the extent of difference between Te and T.

(g) The registered person may calculate Tc and utilize credit to the extent of Tc for payment of tax on commercial apartments, till the complete accounting of Tx is carried out and submitted.

(h) Where percentage completion is zero but ITC has been availed on goods and services received for the project on or prior to 31^{st} March, 2019, input tax credit attributable to construction of residential portion which has time of supply on or after 1^{st} April, 2019, shall be calculated and the amount equal to Tx shall be paid or taken credit of, as the case

may be, as prescribed above, with the modification that percentage completion for calculation of F_4 shall be taken as the percentage completion which, as certified by an architect registered with the Council of Architecture constituted under the Architects Act, 1972 (20 of 1972) or a chartered engineer registered with the Institution of Engineers (India), can be achieved with the input services received and inputs in stock as on 31^{st} March, 2019.

2. <u>Where % completion as on 31st March, 2019 is zero but invoicing has been done</u> having time of supply before 31st March, 2019, and no input services or inputs have been received as on 31st March, 2019, "Te" shall be calculated as follows: -

(a) Input tax credit on inputs and input services attributable to construction of residential portion in a REP, which has time of supply on or before 31st March, 2019 may be denoted as Te which shall be calculated as under,

Te = Tc + TrWhere, -

Tc is the ITC attributable to construction of commercial portion in the REP, calculated as under:

 $Tc = Tn^*$ (carpet area of commercial apartments in the REP/ total carpet area of commercial and residential apartments in the REP) and

Tr is the ITC attributable to construction of residential portion in the REP which has time of supply on or before 31st March, 2019 and which shall be calculated as under,

 $\mathbf{Tr} = \mathbf{Tn}^* \mathbf{F}_1 * \mathbf{F}_2 * \mathbf{F}_3$

Where, -

Tn= Tax paid on such inputs and input services on which ITC is available under the CGST Act, received in 2019-20 for construction of REP

F1, F2 and F3 shall be the same as in para 1 above

(b) The registered person shall be eligible to take ITC on goods and services received on or after 1st April, 2019 for construction of residential portion in the REP, for which he shall not otherwise be eligible, to the extent of the amount of Te.

(c) The amount 'Te' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.

3. Notwithstanding anything contained in paragraph 1 or paragraph 2 above, Te shall be determined in the following situations as under:

(i) where percentage invoicing is more than the percentage completion and the difference between percentage invoicing (per cent. points) and the percentage completion (per cent. points) of construction is more than 25 per cent. points; the

value of percentage invoicing shall be deemed to be percentage completion plus 25 percent. points;

- (ii) where the value of invoices issued on or prior to 31st March, 2019 exceeds the consideration actually received on or prior to 31st March, 2019 by more than 25 per cent. of consideration actually received; the value of such invoices for the purpose of determination of percentage invoicing shall be deemed to be actual consideration received plus 25 percent. of the actual consideration received; and
- (iii) where, the value of procurement of inputs and input services prior to 1st April, 2019 exceeds the value of actual consumption of the inputs and input services used in the percentage of construction completed as on 31st March, 2019 by more than 25 percent. of value of actual consumption of inputs and input services, the jurisdictional commissioner or any other officer authorized in this regard may fix the Te based on actual per unit consumption of inputs and input services based on the documents duly certified by a chartered accountant or cost accountant submitted by the promoter in this regard, applying the accepted principles of accounting.

Annexure II

Residential Real estate project (RREP)

Input tax credit attributable to construction of residential and commercial portion in a Residential Real estate project (RREP), which has time of supply on or after 1st April, 2019, shall be calculated project wise for all projects which commence on or after 1st April, 2019 or ongoing projects in respect of which the promoter has not exercised option to pay integrated tax on construction of apartments at the rates as specified for item (ie) or (if) against serial number 3, as the case may be, in the prescribed manner, before the due date for furnishing of the return for the month of September following the end of financial year 2018-19, in the following manner:

1. <u>Where % completion as on 31st March, 2019 is not zero or where there is</u> inventory in stock

(a) Input tax credit on inputs and input services attributable to construction of residential and commercial portion in an RREP, which has time of supply on or after 1st April, 2019, may be denoted as Tx. Tx shall be calculated as under:

Tx=T-Te

Where,

- T is the total ITC availed (utilized or not) on inputs and input services used in construction of the RREP from 1st July, 2017 to 31st March, 2019 including transitional credit taken on 1st July, 2017;
- (ii) Te is the eligible ITC attributable to construction of commercial portion and construction of residential portion, in the RREP which has time of supply on or before 31st March, 2019;

(b) Te shall be calculated as under:

$$Te = T^* F_1 * F_2 * F_3 * F_4$$

Where, -

(In case of a Residential Real Estate Project, value of "F1" shall be 1.)

Total carpet area of residential and commercial apartment booked on or before 31^{st} March, 2019

 $F_2 =$

Total carpet area of the residential and commercial apartment in the RREP

Such value of supply of construction of residential and commercial apartments booked on or before 31st March, 2019 which has time of supply on or before 31st March, 2019

$$F_3=$$

Total value of supply of construction of residential and commercial apartments booked on or before 31^{st} March, 2019

(F3 is to account for percentage invoicing of booked residential apartments)

Illustration: where one- fifth (twenty percent) of the construction has been completed, F_4 shall be $100 \div 20 = 5$.

Explanation: "% Completion of construction as on 31st March, 2019" shall be the same as declared to the Real Estate Regulatory Authority in terms of section 4 and section 11 of Real Estate (Regulation and Development) Act, 2016 and where the same is not required to be declared to the Real Estate Regulatory Authority, it shall be got determined and certified by an architect registered with the Council of Architecture constituted under the Architects Act, 1972 (20 of 1972) or a chartered engineer registered with the Institution of Engineers (India).

(c) The amounts 'Tx' and 'Te' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.

(d) Where, Tx is positive, i.e. Te < T, the registered person shall pay, by debit in the electronic credit ledger or electronic cash ledger, an amount equal to the difference between T and Te. Such amount shall form part of the output tax liability of the registered person and the amount shall be furnished in FORM GST ITC- 03.

Explanation: The registered person may file an application in FORM GST DRC- 20, seeking extension of time for the payment of taxes or any amount due or for allowing payment of such taxes or amount in installments in accordance with the provisions of section 80. The commissioner may issue an order in FORM GST DRC- 21 allowing the taxable person further time to make payment and/or to pay the amount in such monthly installments, not exceeding twenty-four, as he may deem fit.

(e) Where, Tx is negative, i.e. Te>T, the registered person shall be eligible to take ITC on goods and services received on or after 1^{st} April, 2019 for construction of the RREP, for which he shall not otherwise be eligible, to the extent of difference between Te and T.

(f) Where percentage completion is zero but ITC has been availed on goods and services received for the project on or prior to 31^{st} March, 2019, input tax credit attributable

to construction of residential and commercial portion which has time of supply on or after 1^{st} April, 2019, shall be calculated and the amount equal to Tx shall be paid or taken credit of, as the case may be, as prescribed above, with the modification that percentage completion for calculation of F₄ shall be taken as the percentage completion which, as certified by an architect registered with the Council of Architecture constituted under the Architects Act, 1972 (20 of 1972) or a chartered engineer registered with the Institution of Engineers (India), can be achieved with the input services received and inputs in stock as on 31^{st} March, 2019.

2. <u>Where % completion as on 31st March, 2019 is zero but invoicing has been done</u> having time of supply before 31st March, 2019, and no input services or inputs have been received as on 31st March, 2019, "Te" shall be calculated as follows: -

(a) Input tax credit on inputs and input services attributable to construction of residential and commercial portion in an RREP, which has time of supply on or before 31st March, 2019 may be denoted as Te which shall be calculated as under,

 $Te = Tn^* F_1 * F_2 * F_3$

Where, -

Tn= Tax paid on such inputs and input services on which ITC is available under the CGST Act, received in 2019-20 for construction of residential and commercial apartments in the RREP.

F1, F2 and F3 shall be the same as in para 1 above

(b) The registered person shall be eligible to take ITC on goods and services received on or after 1^{st} April, 2019 for construction of residential or commercial portion in the RREP, for which he shall not otherwise be eligible, to the extent of the amount of Te.

(c) The amount 'Te' shall be computed separately for input tax credit of central tax, State tax, Union territory tax and integrated tax.

3. Notwithstanding anything contained in paragraph 1 or paragraph 2 above, Te shall be determined in the following situations as under:

- where percentage invoicing is more than the percentage completion and the difference between percentage invoicing (per cent. points) and the percentage completion (per cent. points) of construction is more than 25 per cent. points; the value of percentage invoicing shall be deemed to be percentage completion plus 25 percent. points;
- (ii) where the value of invoices issued on or prior to 31st March, 2019 exceeds the consideration actually received on or prior to 31st March, 2019 by more than 25 per cent. of consideration actually received; the value of such invoices for the purpose

of determination of percentage invoicing shall be deemed to be actual consideration received plus 25 per cent. of the actual consideration received; and

(iii) where, the value of procurement of inputs and input services prior to 1st April, 2019 exceeds the value of actual consumption of the inputs and input services used in the percentage of construction completed as on 31st March, 2019 by more than 25 per cent. of value of actual consumption of inputs and input services, the jurisdictional commissioner or any other officer authorized in this regard may fix the Te based on actual per unit consumption of inputs and input services based on the documents duly certified by a chartered accountant or cost accountant submitted by the promoter in this regard, applying the accepted principles of accounting.

In this example, the promoter has procured 80 per cent. of goods and services [other than services by way of grant of development rights, long term lease of land (against upfront payment in the form of premium, salami, development charges etc.) or FSI (including additional FSI), electricity, high speed diesel, motor spirit, natural gas], from a GST registered person. However, he has procured cement from an unregistered supplier. Hence at the end of financial year, the promoter has to pay GST on cement at the applicable rates on reverse charge basis.

In this example, the promoter has procured 80 per cent. of goods and services including cement from a GST registered person. However, he has procured paints, aluminum windows, ply and commercial wood etc. from an unregistered supplier. Hence at the end of financial year, the promoter is not required to pay GST on inputs on reverse charge basis.

Illustration 3:

A promoter has procured following goods and services [other than services by way of grant of development rights, long term lease of land (against upfront payment in the form of premium, salami, development charges etc.) or FSI (including additional FSI), electricity, high speed diesel, motor spirit, natural gas], for construction of a residential real estate project during a financial year.

7	Architect/ designing/ CAD	10	Y
	drawing etc.		
8	Aluminium windows	15	Ν
9	Ply, commercial wood	10	Ν

In this example, the promoter has procured 50 per cent. of goods and services from a GST registered person. However, he has procured sand, cement and aluminum windows, ply and commercial wood etc. from an unregistered supplier. Thus, value of goods and services procured from registered suppliers during a financial year falls short of threshold limit of 80 per cent. To fulfill his tax liability on the shortfall of 30 per cent. from mandatory purchase, the promoter has to pay GST on cement at the applicable rate on reverse charge basis. After payment of GST on cement, on the remaining shortfall of 15 per cent., the promoter shall pay tax @ 18 per cent. under RCM.
